

About Us

iFixit is a wiki-based site that teaches people how to fix almost anything. Anyone can create a repair manual for a device, and anyone can also edit the existing set of manuals to improve them. Our site empowers individuals to share their technical knowledge with the rest of the world.

So what are you waiting for?

Helpful Resources for Repair Guides

Getting Started

Click on the links below to find more information on how to register and fill out your account, create a repair guide, teardown, device page, troubleshooting page, or see the safety precautions for commons repairs.

User Account	Repair Guides	Teardowns	Device Pages	Troubleshooting Pages	Device Safety
------------------------------	-------------------------------	---------------------------	------------------------------	---------------------------------------	-------------------------------

Taking Photos

Need to brush up on your photography? Don't worry, we've got you covered. See how to optimize [taking guide photos](#), or check out our [camera operating instructions](#) page for useful tips and camera settings. For a final, professional touch, learn [how to post-process pictures](#).

Writing

Photos are great, except they tell half the story. Here are some awesome writing resources that'll help you bring out your inner technical Shakespeare.

Writing Awesome Guides	Repair Guide FAQ	Teardown FAQ	Do's and Don'ts of Writing	Naming Devices	Tech Writing Handbook
--	----------------------------------	------------------------------	--	--------------------------------	---------------------------------------

Need more help? The [Help Documentation](#) page is *the* place to go to read up on the many features of iFixit.
